

The Final Word

What have you gotten from [The Manual for Teacher Development](#)?

What particular suggestions resonated for you? How many did you try? Which ones?

Have you found a way to successfully integrate these into a course you teach? How? Be specific when you can.

Do you intend to try out others? Which?

Any final words on engaging with this manual?

On a scale of 1 (highest) and 5 (lowest) how well do you think the manual would help educators be more effective and engaging?
